TECHNICAL SPECIFICATIONS

Secondary Wireless Internet Access Service (IAS) for the Philippine Consulate General in Agana Project No. PCGAG-2021-75

The Philippine Consulate General in Agana is using the internet for the delivery of key consular services to the public including passports, visas, notarials, civil registry and other services. It also heavily utilizes internet service for the operation of various systems including the appointment systems for passport, visa and other consular services and the transmission of passport applications. In order to enhance productivity, ensure operational efficiency, the Consulate needs a reliable secondary internet service that provides business continuity. The procurement of the secondary IAS will also improve the overall internet utilization and minimize if not eliminate any downtime. Thus, the Consulate General intends to engage the services of a vendor that will provide wireless internet access subscription with the following detailed requirements:

LOT	QTY	UNIT	TECHNICAL SPECIFICATIONS
1			Secondary Wireless Internet Access Service (IAS) to include: Equipment (lease) for the internet connection Uninterruptible power supply (UPS) Installation, labor & materials On-call (same day), technical support, maintenance and repair
